TECHNOLOGY

KNOTT Trailer Technology
Arriving Safely

Always for the benefit of our customers. Whether large or small.

From a humble beginning, the Knott Group has grown to become a multinational Group. Therefore, whether you are a sole proprietor or a corporation, we always focus on your needs to support you in every stage of your trailer process. This ensures we manufacture and deliver to match your needs supporting your business.

Everything your trailer needs. Everything from a single source.

No matter what area of application. No matter what setup. KNOTT develops, manufactures, and supplies all the parts necessary for the safe operation of a robust, lightweight, and durable trailer:

Chassis, axles, attachments, and accessories for utility trailers, horse trailers, boat trailers, caravans, car transporters ... or for the trailer you want to develop right now!

Welcome to your trailer specialist.

At KNOTT, you will find everything you need to build high-quality and reliable trailers. Every product from the cables to the lighting, from the chassis to the tyres and all to the highest quality using state of the art technology. All possible given we have been a leading full range supplier in Europe for more than 70 years having expanded to successfully operate worldwide.

Did you know...

... that KNOTT produces and delivers about 1 million axles every year?

Maximum for every industry!

Car transporter

Perfectly designed for high mileage and maximum driving stability. Ensuring that every vehicle makes it to its destination safely.

Caravan

The optimal chassis for a safe travel and a relaxed arrival. Ensuring maximum comfort while driving from home to campsite.

Mobile sawmill

Made for challenging tasks. Just one example of our expertise in providing customized solutions that meet the needs of our customers.

Electric drum winch

Ideal for construction sites and any type of towing vehicle. Thanks to a robust design with a height-adjustable overrun device.

Horse trailer

Proven safety and high suspension comfort are combined for the driver's and the animal's benefit.

Boat trailer

For your journey on the road and the sea. With waterproof bearings that are available for use in both fresh and salt water, and an optional flushing system.

Innovations for maximum safety and stability.

As a traditional company, innovation is our top priority for the future. We are constantly working on ourselves and our products to ensure that we meet our customers' diverse requirements with the best solutions.

KNOTT ETS Plus – the original for stability

Just one example of our development and innovation strength: the KNOTT ETS Plus stabilization system for caravans. It detects any dangers of swerving at an early stage applying the brakes the safely.

Always there for you – always with your interest in mind.

Certified quality at the highest level

We go beyond saying that we are one of the best manufacturers. We also have the capability of demonstrating it.

At KNOTT, our ethos is just as important as technology. This strategy applies to equally to our own employees as it does to our customers. You can be certain that no matter who you communicate with; you will receive friendly and precise advice, and in in such a way as to serve your needs and requirements.
